TEST & MEASUREMENT LINE LIST

HUBER+SUHNER

High performance connectivity solutions for Low Frequency, RF (Up to 70Ghz) and Fiber Optic applications, that include connectors, precision adapters, and high-performance cable assemblies for Analog & Digital RF testing.

kAelus

Filters, Combiners, Tower Mounted Amplifiers, DAS Interface Trays & Passive Intermodulation (PIM) test solutions.

mercury

RF Solutions ranging from board level, connectorized components and MA's to full subsystems in microwave & mmWave bands. Custom-built solutions leveraging capabilities and engineering from design-to spec to build-to-print applications utilizing both chip and wire and SMT technology with domestic manufacturing for the Mil-Aero, Space, & SATCOM markets.

QORVO

Merging RFMD's and TriQuint's semi-conductor and foundry technologies for scalable & dynamic RF solutions for mobile, infrastructure and defense applications.

ROHDE & SCHWARZ
Mobile Network Testing

High-performance Test & Measurement solutions for mobile network Benchmarking, Optimization, Service Quality Monitoring, Data Management, and Analysis and Reporting.

sero⁴

Highly secure keyless armored padlocks & keyless lock controllers, managed by a cloud-based platform with unlimited scalability, easy to deploy and use, purpose-built for critical infrastructure.

TELEDYNE
RELAYS
Everywhereyoulook

QPL & COTS Electromechanical Relays, Solid-State Relays, Space (Hi-Rel) Electromechanical Relays, RF & Microwave Relays & Coax Switches, Industrial Solid-State Relays, & Switching Matrices.

TELEDYNE
COAX SWITCHES
Everywhereyoulook

TRANSECTOR

Power & lightning protection for AC, DC, high speed data, signal, power protection cabinets, EMP | EMI filters, power conditioners, UPS and power distribution units.

UNIPOWER
POWERING TECHNOLOGY

High-efficiency power electronics, including DC and AC energy conversion systems. Ruggedized power supplies, rectifiers, inverters and distribution panels for mission-critical power applications.
